

CLEANLINESS IS NOT A LUXURY

Hello everyone, finally the long awaited day has come, we shall be talking about the dangers of poor hygiene today.

- To begin with poor hygiene leads to outbreak of contagious diseases eg cholera, typhoid and malaria.
- Improper disposal of waste leading to enviromental pollution.
- Leads to food born illiness.

However we can over come these barriers by oing the following.

- Proper disposal of waste.
- Clean and safe living and work space
- Food safety and promoting health.

Together we can keep our environment clean
